

LEGRAND REMOTE CONTROL VARIATOR - PENTRU FLUORESCENT LAMP CU 0-10 V BALLAST - 4 MODULE

Caracteristici tehnice
Remote control dimmers 100 - 240 V~ - 50/60 Hz
Symmetrical rail mounting
The last lighting level is stored into memory, in case of Putere cut or switch-off
Direct or remote control (switching and dimming) with non-illuminated push-buttons
For fluorescent lamps with 1-10 V dimmable ballast
Suitable for fluorescent tubes and compact fluorescent lamps with separated dimmable ballast
Ballast Putere: maximum 1000 VA (for 230 V~ 50/60 Hz)
Control current: 50 mA
Equipped with illuminated scale indicating the light level of controlled lamps
Numar de module : 4
Caracteristici generale
Lighting management remote control dimmers
Pret: 1.448,38 LEI (TVA inclus)
