CIF: RO36421140
Adresa: Strada Apusului nr 3 (primul
sens giratoriu Tehodor Pallady-
Autostrada Soarelui), Catelu, Ilfov
Banca: BRD
IBAN: RO34BRDE441SV13182234410

WIHA WIRE END SLEEVES WITH PLASTIC COLLAR SET

Description

It is especially important for electricians to ensure that individual wires do not get crushed or misdirected when connecting fine-wired lines. If they do, there is a risk of cable breaks or even short circuits, which can potentially cause a fire. Wire-end sleeves can prevent such risks and provide reliable contacts, thus ensuring things work safely for the long term. The conical-shaped collar makes it easier to insert wires into the sleeve. The sleeve also makes it easier to insert the cable into the terminal. The wire end sleeves are stored in a dispenser for easy use with a latching function to prevent unintentional openings. Wiha halogen-free wire-end sleeves offer heat resistance up to 105 °C. They are manufactured to DIN 46228 specifications and are certified as per the applicable standards and UL requirements.

Application

Eminently suitable for connecting fine-wired lines, especially terminal connections.

Greutate: 95g

Pret: 0,00 lei (TVA inclus)
