

IEK NEUTRAL BUS BAR WITH DIN-IZOLATOR OF “BEARING” TYPE SHNI-6X9-8-S-ZH

Neutral bus bars with SCHNI-type insulator are intended for electric and mechanical connection of neutral operating and protective conductors. Constructively, SCHNI buses are made of a latten alloy bus placed onto a plastic insulator made of self-extinguishing plastic. Standard exploitation conditions: - ambient temperature: from –40 to +50 C; - relative humidity: under 90%.The bus isolator is made of non-combustible materials.
Wide range of models.Rated current In: 100
Material: EV000149
Type of surface: EV006034
Number of conduit outlets: 8
Sword length: 59
Type: IEK_V0000120
Attachment screws: EV009090
Nominal voltage: 400
Max. conductor cross section: 10
Ambient temperature: -40...50
Height: 29,6
Depth: 22,5
Number of buses: EV000599
Model: EV000154
Pret: 5,69 LEI (TVA inclus)
