

IEK TERMOCONTRACTIBIL PKV(N)TP 5X35/50 WITH PVC ISOLATION 1KV

PKV(N)tp-1 and PKVtp-1 heat-shrink sleeves are designed for termination of aluminum or copper conductors of cables with plastic, rubber and polyethylene insulation for voltages up to 1 kV: AVVG-1, VVG-1, AVVGz-1, VVGz-1, APvVG-1, PvVG -1, their equivalents and versions.Quick and easy mounting of heat-shrink components using gas torch or high-temperature drying fan.
Perfectly leak-tight sleeve design due to:
– use of high-quality two-layer heat-shrink materials;
– adhesive thermomelting coating on inner surfaces of heat-shrink tubes and multiple cable joints.
Wide range of products, with several versions of sleeve supply: without lugs, with bolted lugs having break-out heads, with compression lugs.Suitable for: EV009707
Model: EV004267
Voltage row: EV004258
Nominal cross section: 35...50
Type of insulation material: IEK_V0000184
Installation Type: IEK_V0000187
Complete set: IEK_V0000188
Number of cores wiring: 5
Tip Type: IEK_V0000189
Nominal voltage: 1
Material: IEK_V0000193
Min full shrinkage temperature: 120
Operating temperature range: -45...+50
Shrink rate: EV009535
Number of conductors: 5
Pret: 350,20 LEI (TVA inclus)
