
IEK NEUTRAL BUS BARS IN COMBINED DIN-IZOLATORS OF “BEARING” TYPE SHNI-8X12-8-KS-ZH

Neutral bus bars with SCHNI-type insulator are intended for electric and mechanical connection of neutral operating and protective conductors. Constructively, SCHNI buses are made of a latten alloy bus placed onto a plastic insulator made of self-extinguishing plastic. Standard exploitation conditions: - ambient temperature: from –40 to +50 C; - relative humidity: under 90%.The bus isolator is made of non-combustible materials.
Wide range of models.Rated current In: 125
Material: EV000149
Type of surface: EV006034
Number of conduit outlets: 8
Type: IEK_V0000121
Nominal voltage: 400
Max. conductor cross section: 16/16
Ambient temperature: -40...50
Width: 95
Height: 34,5
Depth: 25
Number of buses: EV000599
Model: EV000154
Pret: 11,80 LEI (TVA inclus)
