

Furnizor: **Sc Trivolt Distribution SRL**
Reg. com.: J23/3300/2016
CIF: RO36421140
Adresa: Strada Apusului nr 3 (primul
sens giratoriu Tehodor Pallady-
Autostrada Soarelui), Catelu, Ilfov
Banca: BRD
IBAN: RO34BRDE441SV13182234410

ELSTEAD-LIGHTING GARDEN ZONE 11W DRIVER

Class: Class I
IP Rating: IP67
Integrated LED: No
Voltage: 12v
Energy Rating: A++ - A
Brand: Garden Zone
Family: Garden Zone
Interior/Exterior: Exterior
Product Style: Landscape Lighting
Product Type: Garden Zone Accessory Made in England: No
Barcode: 5024005349211
PLUG & GO: HOW IT WORKS
Step 1: Choose the areas you want to have lit, then we suggest that you sketch a rough plan view of each area involved.
Step 2: Choose the fittings which will suit the requirements and list them out with the quantity of each where relevant. Be careful to bear in mind the voltage of the fittings chosen. All 220-240V fittings will need mains supply to wherever they are to be installed whereas all plug & go models just need to be connected into the low voltage cable (as shown below).
Step 3: Measure the distance involved for the plug & go models chosen and determine, from the cable set options available which cable set or sets will be needed. Remember, up to 80 metres of cable can be used from 1 LED driver but the wattage loading must not exceed the recommended minimum, maximum (see accessories page 209).
Step 4: Plan where the mains supply will originate from. With the plug & go system you have a choice of placing the LED driver/drivers in an IP rated wall box on an exterior wall. However, depending on how large an area is involved, sometimes more than one mains feed may be needed in different locations. Consultation with an electrician is advisable on this matter.
Important
Plug & go fittings use a unique single pin, 2 pole plug and as such are not compatible with any other product or system. Currently they are not dimmable but they will work when wired via a timer.
Pret: 197,06 lei (TVA inclus)
