

Furnizor: **Sc Trivolt Distribution SRL**
Reg. com.: J23/3300/2016
CIF: RO36421140
Adresa: Strada Apusului nr 3 (primul
sens giratoriu Tehodor Pallady-
Autostrada Soarelui), Catelu, Ilfov
Banca: BRD
IBAN: RO34BRDE441SV13182234410

IEK CUTIE METALICA VRU-1 20.45.45 IP31 TITAN

Input/distribution switchboards are designed for reception, distribution and metering of electric power in 3-phase networks 400/230 VAC, protection of lines against overload and short-circuit currents and also for not frequent operative switching. Metal VRU enclosure of TITAN IEK series is constructed as all-welded framework made from steel sheets that is highly resistant to corrosion. The all-welded enclosures have rigidity and mechanical strength that is unprecedented for modern market of low-voltage equipment, due to use of special manufacturing technologies. The fields of VRU application are civil engineering and industrial plants. Use of modern technologies - additional rigidity of the structure.

Wide selection of optional accessories from galvanized steel.

Enhanced functionality.

Wide range of products.

Options of door hinges location.

Improved corrosion resistance.

High level of electrical safety.

Highly practical and simple assembling.

Compliance certificate. Degree of protection (IP): EV006411

Ambient class: IEK V0000009

Primary current: 630

Material housing: EV000179

RAL-number: 7035

Height: 2000

Width: 450

Depth: 450

Built-in depth: -

Type of cover: EV000116

Surface protection: EV008895

Cable entry: EV000645

Surface Billing: IEK V0000104

Door opening angle: 130

Type of installation: IEK_V0000113

Metal thickness: 1,4

Number of modules: -

Type of door: EV002646

Plate thickness cabinet: 1.4

Plate thickness door/cover: 1,4

Cover model: EV000494

Pret: 0,00 lei (TVA inclus)
