Geometric forms are a hallmark of modern design that has been the most frequently chosen style by architects for many seasons. LARGO fixtures perfectly match modern arrangements of gardens and building facades. A milky cover made of polycarbonate effectively softens and disperses the light. Any light source with an E27 thread and power not exceeding 25 W can be used as a light source. Thanks to this, each user can adjust the intensity and colour temperature of the light to his own preferences. Modern, cubic form; Milky cover dispersing the light; Corrosion-resistant aluminium body. Base type E27
