WIHA TUBULARA IZOLATA 120 MM | 4

Description
Safety is the top priority when users are working on live parts. The Tubulara izolatas from Wiha are the ideal tool for working on electrical systems. Combined with the insulated ratchet wrench or T-handle adapter, the nut driver inserts can be used for tightening and loosening hex screws. The Tubulara izolatas undergo individual piece testing as per the international IEC 60900 standard, thus providing users with a tool to work safely on live parts up to 1,000 V AC. The fully insulated tools prevent potential short circuits caused by unintentional contact, even in confined working environments.

Application
Safe installation of terminals and sleeves, conductor connections and fastening of conductor lines. For working on live parts up to 1,000 V AC.

Note
Only compatible with insulated ratchet wrench and T-handle adapter from Wiha.

Greutate:110g
Pret: 130,53 LEI (TVA inclus)
