

ATM LIGHTING CORP DE ILUMINAT LED ANTIEXPLOZIE PLFM LED 20W

Corp de iluminat LED destinat pentru functionarea in zonele industriale cu potential exploziv cum ar fi platformele petroliere, rafinarii, benzinarii etc., conceput pentru zonele 1,21 si 2,22. Corpul de iluminat poate fi echipat cu un suport pentru montarea rapida pe stalp si grila de protectie disponibila ca optiune.

Materiale folosite:

Carcas?: aluminiu turnat

Dispersor: sticla borosilicata

Caracterisitici tehnice :

Sursa de iluminat: LED

Tensiune de alimentare 230V

Clasa de protec?ie modul: I; IK08

Clasa de temperatura: T6

Grad de protec?ie: IP66

Putere LED 20W

Flux luminos : 1300 lm

Durata de via??:> 50.000h

Montaj posibil: suspendat, perete, tavan stalp/teava

Temperatura mediului ambiant : de la -20 ° C pân? la + 40 ° C

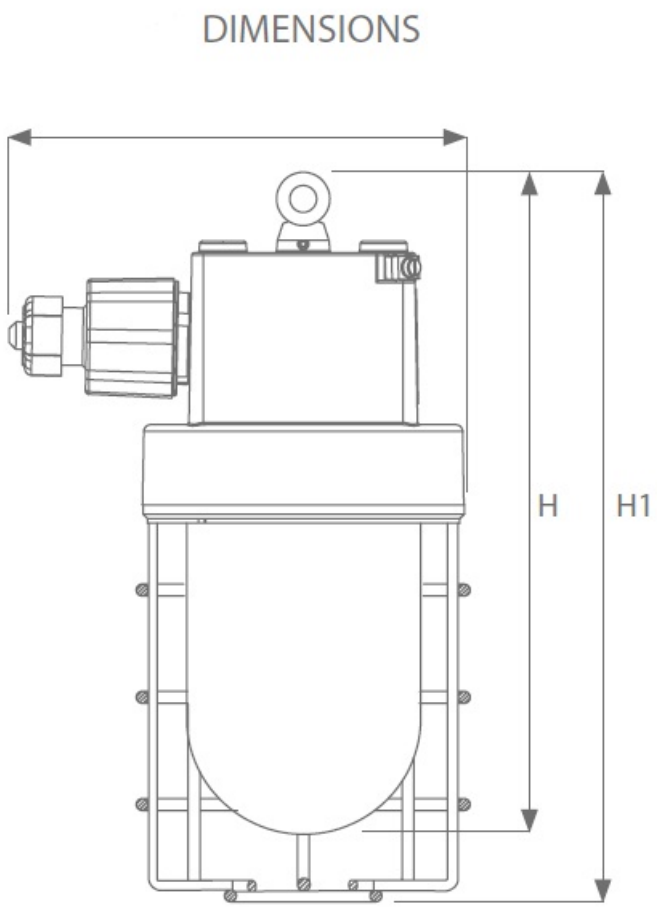

Temperatura maxima (praf): 80 ° C

Conexiune conductor: 5x2,5 mmp

Diametru cablu: Ø mm 6-15

Certificare: EXA 14 ATEX 0056X

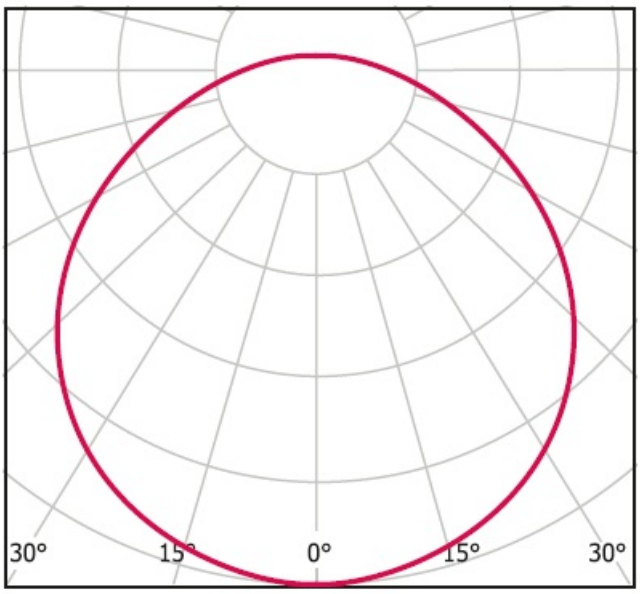

Dimensiuni:

TYPE	L	H	H1
LED	175	320	345

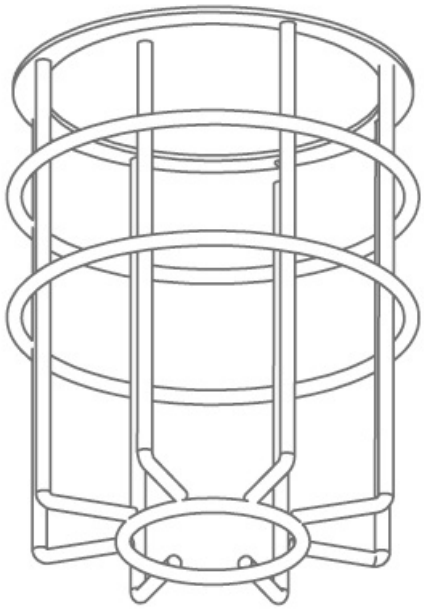

Distributie luminoasa:

PHOTOMETRY

Accesorii:

Grila de protectie

Pret: 2.957,67 LEI (TVA inclus)
