

DAR LIGHTING GROUP APLICA COHEN 1 LIGHT WALL LIGHT MATT BLACK WITH OPAL GLASS

The Cohen single wall light in matt black and opal glass goes perfectly with our sputnik inspired Cohen semi-flush light or can be used on it’s own. The pull cord switch means you can switch it independently to the other lights in your room without the expense of adding extra wall switches. If you already have an extra wall switch don’t worry you can easily set the switch to ‘on’ and remove the cord. We’ve chosen the matt black and smooth opal to bring it in-line with current trends and make it easy to decorate with. The Cohen single wall light is perfect for bedrooms where it can be mounted on either side of the bed, freeing space and the pull cord switch is easy to turn on in the dark. Equally It can be used in hallways or any other indoor living space. The Cohen single wall light takes a G9 lamp, we’d always recommend using one of our highly efficient LED lamps available in a warm 3000k temperature or a crisp cool white 4000k, take a look at our LED Lamps for the full range.Measurements D13 x H25 x W10cm
