

IEK DESCARCATOR OPS-1-C 2P IN=20KA UN=400B IM=40KA

Surge protective devices OPS1 are intended for protection of internal distribution networks of residential and public building from lightning and surge overvoltages. Correspond to the requirements EN 61643-11. Improved reliability of suppressor by reducing power dissipation.

Improved rating of residual voltage arising at surge overvoltage.

High level of fire protection is provided by reliable thermal protection. Mounting method: EV005503

Nominal voltage AC: 400

Nominal voltage DC: 440

Total discharge current (8/20) (L+N-PE): 40

Voltage protection level: -

Voltage protection level L-PE/N-PE: -

Number of poles: 2

Signalling at the device: EV000428

Degree of protection (IP): EV006405

Pret: 168,11 LEI (TVA inclus)
