

IEK NEUTRAL INSULATED BUS BAR WITH ONE CORNER IZOLATOR SHNI-6X9-8-U1-S

Neutral bus bars with SCHNI-type insulator are intended for electric and mechanical connection of neutral operating and protective conductors. Constructively, SCHNI buses are made of a latten alloy bus placed onto a plastic insulator made of self-extinguishing plastic. Standard exploitation conditions: - ambient temperature: from –40 to +50 C; - relative humidity: under 90%.The bus isolator is made of non-combustible materials.
