

IEK ANCHOR BRIDA S ZAB 16-25 (DN 123)

ZAB anchor clamps are designed for anchoring of 2 or 4 user's self-bearing insulated wires. Special surface geometry of wedges ensures safe fixing of conductor, preventing it from falling out, without damage to the wire insulation. All parts are made from polymers, resistant to UV radiation and weather conditions. ZAB 16-25 clamp does not require tools for installation and its quick-detachable bail allows for fastening to the brackets and hooks. Bail length varies from 90 to 150 mm and it has an additional latch preventing loosing from wedge holder, for example, under effect of increased wind load.Crimper ZAB 16-25 requires no tools for installation and easily removable shackle clamp allows you to mount it to brackets and pigtails.
The length of the shackle varies from 90 to 150 mm, it is also equipped with an additional lock that does not allow it to jump out of the wedge pressure, for example, during high wind loads.
The design of the wedges is made externally to the conductors. Thus, the fixed wires are easily inserted and clamped with wedges, which significantly reduces the installation time.Section of retained SIP: 2?16...4?25
Weight: 0,136
Nominal voltage: 1000
Ambient class: IEK_V0000007
Ambient temperature: -60...70
Clamping cable diameter: 7,2…8,7
Number of cables: 2 ??? 4
Material: EV007763
Surface protection: EV000154
Max. tensile load: 1961
Minimum destructive load: 1,9
Length: 220 ± 3
Width: 67 ± 1
Pret: 18,73 LEI (TVA inclus)
