

IEK ANCHOR BRIDA S ZAB 4X10-35 (HEL-5505)

ZABu anchor clamps are designed for anchoring of 4 user's self-bearing insulated wires. Special surface geometry of wedges ensures safe fixing of conductor, preventing it from falling out, without damage to the wire insulation. All parts are made from polymers, resistant to UV radiation and weather conditions. ZABu 4x10-35 anchor clamp is made from hot-dip galvanized steel that is resistant to corrosion, and polymeric materials. The clamp design allows for easy transformation to intermediate (supporting) clamp by turning its holding element by 90°; it is only necessary to loose the bolt for this operation.ZABu 4x10-35 anchor clamp is made from hot-dip galvanized steel that is resistant to corrosion, and polymeric materials.
The clamp design allows for easy transformation to intermediate (supporting) clamp by turning its holding element by 90°; it is only necessary to loose the bolt for this operation.Section of retained SIP: 2?10...4?35
Weight: 0,47
Nominal voltage: 1000
Ambient class: IEK_V0000007
Ambient temperature: -60...70
Clamping cable diameter: 6…9,7
Number of cables: 2 ??? 4
Material: EV007763
Surface protection: EV000154
Max. tensile load: 12000
Minimum destructive load: 3,46
Length: 168 ± 2
Width: 50 ± 2
Height: 75 ± 0,5
Pret: 45,51 LEI (TVA inclus)
