IEK KFK12-47.6 FASTENING KIT (SF 50, BRPF 70-150-6F)

Facade fastening kit of KFK type are intended for suspension fixation and batch bundling of self-supporting insulated conductors (SSIC) under 1 kW on bearings and building walls. Bodies are made of polymer resistant to UV and weather conditions. Dowel part of fixtures is installed into 12 mm hole and fixed with a nail. KFK kits are supplied with a special channel allowing carrying out laying the second cable line along the existing one using a HS strap. Fastening sets are intended for facilitating SSIC mounting when arranging branching from the bearings or connecting SSIC to the building.KFK kits are supplied with a special channel allowing carrying out laying the second cable line along the existing one using a HS strap.
Fastening sets are intended for facilitating SSIC mounting when arranging branching from the bearings or connecting SSIC to the building.Model: EV007973
Material: EV000139
Material quality: EV000154
Colour: EV000206
Diameter fixed wire bundles: 12…47
Operating temperature: -60...80
Operation temperature: -60...80
Max. bundle diameter: 47
Band closure: EV009884
Ultimate load: 198.0
Max. load: 20
Text strip: EV000494
Type of fastening: EV010090
Drill hole diameter: 12
Drill hole depth: 60
Distance to wall: 60
Length belt/tape/tie: 180
Tie thickness: 2.00
Band width: 9.0

Pret: 8,66 LEI (TVA inclus)
