

IEK SELF-BACKING BSI SP 0,76X19 (9M/PACK.)

For repair of damaged conductor insulation and cable sheath. It is used for cables and wires up to 1 kV with plastic and rubber insulation. When puncturing clamps are removed from the SBIW line, the wire insulation in punctured points must be restored with use of self-baking insulating tape.The cable insulation section that is restored with the tape, does not require mechanical actions or thermal exposure after wrapping.Material: EV006147
Colour: EV000202
Length: 9
Width: 19
Thickness: 0,76
Nominal voltage: 1000
Temperature protected till: 80
Ambient temperature: -60...+55
Pret: 30,06 LEI (TVA inclus)
