

IEK PUSH-BUTON CONTROL DESK PKT -63 PENTRU 6 BUTON S IP54

Push-button control desk is intended for commuting electric circuits controlling hoisting mechanisms. They represent a sealed casing made of thermal-resistant ABS-plastic with buttons. To ensure sealing of the cable lead-in a protective gland is provided. There is an O-ring mounted between the casing and the keyboard. According to its constructive and technical features, PKT series talfer button keyboards meet the requirements of IEC 60947-5-1. Option of installing 2, 4 or 6 buttons.

PKT casing is made of ABS-plastic being a non-flammable material.

Protective gland at the cable lead-in excludes dust and moisture ingress. Number of command positions: 6

Number of speeds: 1

Type of executable motions: EV000154

Material housing: EV000139

Width: 68 Height: 50 Depth: 366

Nominal voltage: 400 Frequency: EV008013

Ambient temperature: -25...+45

Functions of control buttons: IEK_V0000411 Conventional thermal current under cover I the: 5

Nominal rated voltage: 120/230/400

Nominal operating current Ie at AC-15 120 V: 6.0 Rated operation current Ie at AC-15, 230 V: 3.0 Nominal operating current Ie at AC-15 400V: 1.5

Switch on and off ability: 10 Rated insulation voltage Ui: 500 Switching overvoltage: 500

Rated surge voltage invariability: 4

Nominal conditional short-circuit current Icn: 1000

Protection against short-circuit current at Ie 3A pre-cover qG: 5.0 Protection against short-circuit current at Ie 1_5A pre-cover qG: 3.0

Model: IEK_V0000412

Presence of lock: IEK_V0000413

Actuating force: 30

Mechanical wear resistance: 30000 Degree of protection (IP): EV006419 Section of the connected conductors: ? 1,5 Application in the environment: IEK_V0000414

Internal size for cable: 16

Length: 253

Pret: 90,92 LEI (TVA inclus)
