

IEK CONNECTOR WITH BOLT GD 150-240 35KW

The bolted terminals and sleeves, like compression terminals and sleeves, are designed for termination of conductors. However they can be fixed without use of expensive equipment. A torque wrench is sufficient. Moreover, their unquestionable advantage is a capability to be used for termination and connection of both copper and aluminum conductors. All products have conductivity according to GOST 17441-84. Applicable for copper and aluminum cores.

The retaining divider on the inside.

No special tool is required for installation. Nominal cross section: 150...240

Nominal voltage: 35

Material: IEK_V0000333

Number of screws: 4

Surface protection: EV000899

Ambient temperature: -60...+80

Moment of screw head failure during installation: 58,5

Length: 110.0

Width: 37.0

Height: 37.0

Weight: 0,223

Bolt dimension metric (M.): 20

Voltage row: IEK_V0000265

Pret: 74,38 LEI (TVA inclus)
