

IEK PINI WITH BOLT NB 35-50 1KW

The bolted terminals and sleeves, like compression terminals and sleeves, are designed for termination of conductors. However they can be fixed without use of expensive equipment. A torque wrench is sufficient. Moreover, their unquestionable advantage is a capability to be used for termination and connection of both copper and aluminum conductors. All products have conductivity according to GOST 17441-84. Applicable for copper and aluminum cores.

No special tool is required for installation. Length: 62.0

Surface protection: EV000899
