

IEK SIZ-1 4,0-11,0 RED (100 PCS.)

SIZ type connecting insulating clamps are intended for electrical connection, fixation and insulation of wire bunch with cores from 0,5 to 10,0 mm² in section in AC or DC electric circuits up to 450 V. Quick, easy and safe installation.

Clamps do not require the use of special tools, screwed on the pre-cleaned and twisted ends of the wires.

The conical spring located inside the housing provides a reliable fixation of the wire twisting throughout the service life, the housing completely isolates the connection.

Clamps can be used repeatedly. Number of cores: -

Core cross section: 4,0...11,0

Colour: EV000233

Nominal rated voltage: 450

Operation temperature: -10...+45

Height: 26.5

Width: 16.5

Ambient class: IEK_V0000067

Degree of protection (IP): EV006405

Mechanical Execution Group: EV009088

Pret: 67,64 LEI (TVA inclus)
