

IEK SIZ-2 7,0-20,0 ALBASTRU (100 PCS.)

SIZ type connecting insulating clamps are intended for electrical connection, fixation and insulation of wire bunch with cores from 0,5 to 10,0 mm2 in section in AC or DC electric circuits up to 450 V.Quick, easy and safe installation.
Clamps do not require the use of special tools, screwed on the pre-cleaned and twisted ends of the wires.
The conical spring located inside the housing provides a reliable fixation of the wire twisting throughout the service life, the housing completely isolates the connection.
Clamps can be used repeatedly.Number of cores: -
Core cross section: 7,0...20,0
Colour: EV000233
Nominal rated voltage: 450
Operation temperature: -10...+45
Height: 32.0
Width: 25.0
Ambient class: IEK_V0000067
Degree of protection (IP): EV006405
Mechanical Execution Group: EV009088
Pret: 81,84 LEI (TVA inclus)
