GOA lamp is an interesting and modern offer for people who like a classic shape, but in more modern version. A bold combination of shapes such as a cylinder and straight lines is its trademark.

Pendant lamps create a unique atmosphere in the room. They attract attention that is why it is especially important to match them properly with the interior design. The pendant lamp will not only beautifully illuminate the room you choose, but will also be a unique decoration.

The effective design of this lamp is based on the principle of contrasts. A classic, slightly expanding downwards, black lampshade is covered with a decorative golden frame.
