

GTV LAMPA TAVAN - CEILING FIXTURE LIJA, 2614 SQUARE, AC220-240V, 50/60HZ, 1*E27, MAX.40W, R.29CMX10CM, SINGLE, BLACK

The LIJA lamp is a proposal for lovers of modern and Scandinavian style. Both styles focus on the geometrization of objects and gentle shapes, and what distinguishes this collection of lamps is minimalism.

A single-point, square lamp can be used as additional lighting in the living room, kitchen, or dining room. In larger interiors, it is worth using several lamps next to each other. It can also be combined with GIJA (triangle) and FIJA (circle) lamps because the charm of this unique collection lies both in its simplicity and variety.

In lamps with a visible light source, it is important to remember to choose the right shape of the bulb and its color. Our proposal is FILAMENT light sources with warm light colour in the range of 2700-3000

K. These sources combine advanced LED technology with a classic look. The modern shapes of bulbs in this style are a decorative element even with the lights turned off. The combination of a classic style with an energy-saving solution is not only an effective element of interior furnishing but also a much better solution for the environment. Universal lamp for interiors in both modern and Scandinavian styles;

The geometric shape can be used in any interior – kitchen, living room, children's room and teenagers' room; Timeless, universal, and always fashionable black colour;

Meticulous workmanship guarantees long-term use;
