

GTV LAMPA TAVAN - CEILING LIGHT FIXTURE PIREO N SURFACE MOUNTED, SINGLE, IP20, WHITE/WHITE

Pireo N surface-mounted ceiling lamp fixture – functionality and design with a contemporary effect

The Pireo N surface-mounted lamp fixture is a refined model of electrical light in which convenience of use is on a par with great design.

The Pireo N surface-mounted ceiling lamp fixture is available in a choice of two options – single-spot and two-spot. This provides the freedom to create the interior design and control the lighting power in the chosen area. Both variants are available in basic colours – neutral white and smart black. They harmonise very well with modern or minimalist interior styles, especially those Scandinavian. They look great in offices, front desk areas, but also in homes where, while adding comfort, they provide a subtle decoration of the interior.

The Pireo N surface-mounted lamp fixture has light beam direction controlled. The refined form and geometric shape add charm and stylishly complement the interior design.

The Pireo N surface-mounted ceiling fixture does not include a light source – you will need to purchase one, and it fits lamps with the G53 base.

The light beam angle is adjustable in 2D.

Electric shock protection: the light fixture is safety class III, which significantly enhances safety during installation and operation.

The durable and proven design will ensure many years of trouble-free use.

All necessary installation components are included with the lamp fixture. Adjustable beam angle in two planes.

Protection against electric shock – luminaires are made in protection class III significantly improves safety during assembly and use.

Durable and proven design will ensure many years of trouble-free use.

All necessary mounting elements are included with the luminaire. Producent code OP-PIREN1-00
Pret: 13,11 LEI (TVA inclus)
