

GTV SPOT - CEILING LUMINAIRE LUPO, ALUMINUM, 17.5×5.6×11.5, IP20, 2*GU10, MAX. 50W, ROUND, WHITE

Lupo ceiling fitting – a
combination of original design with functionality
Lupo ceiling fitting is an original design that blends perfectly with modern interior design, minimalist arrangements, it also fits into lofts and wherever innovative design is important.
Lupo collection is available in a
variety of options to choose from. The single-point ceiling fitting consists of two cylindrical elements. One mounted on the ceiling – remains stationary, while the other moves forward and backward, enabling the light beam to be positioned where it is needed. The two-point ceiling fitting consists of three connected modules. The middle one is a
connector and at the same time a
mounting element to the ceiling, while the two side ones are movable. Each of the variants is available in matt, subtle white and elegant, black matt.
The light source is set quite deep so that the lamp does not dazzle, ensuring a
high level of illumination of the space at the same time. Lupo ceiling fitting is a
great choice for stylish offices, modern apartments and houses. Movable head allows to change the angle of incidence of light;
