

GTV SPOT - CEILING LUMINAIRE VENETO, IP20, MAX. 20W, 2 X GU10, ROUND, WHITE

Veneto LED rail-mounted ceiling lamp fixture – modern style
The Veneto ceiling lamp fixtures are a
refined collection of modern lighting solutions for offices, homes and spaces where functionality is to be combined smoothly with innovative form.
The Veneto series is designed for those who do not want to compromise between comfortable utility and great design. This model, therefore, features refined style with a
geometric expression, convenience with a
wide adjustment of the light beam angle and direction, and a
great deal of freedom in the choice of illumination levels considering the light's size.
There are different size options to choose from in the collection: three-spot, four-spot and six-spot. In each option, small fixtures, based on the base of a
circle, sit on long, straight rails. The level of illumination increases in proportion to the number of light spots installed on the rail. In addition, two colour options are available – subtle white and classic black. Thanks to this formula, the Veneto ceiling lamp fixtures allow building a
coherent design concept, for example in the kitchen, dining room and living room, using different sizes of lights from the same series in the interior design. Dedicated to GU10
light sources
Modern and minimalist design
Available in three sizes Producent code OS-VEN20WO2-00
Pret: 55,12 LEI (TVA inclus)
