

GTV SPOT - CEILING SPOT FIXTURE ALESSIO, IP54, SQUARE, INOX/SATIN

Alessio point ceiling luminaire – modern lighting in its original form Alessio ceiling luminaire is a well-known classic on the market – functional spot lighting, enclosed in a unique visual form. The point ceiling luminaire is an extremely practical addition in any room. It works well in offices, shops, pubs, restaurants and cafes, hotels, but it also looks good in homes and apartments. Alessio is a point ceiling luminaire that has ip 54 protection class. This means that it is suitable for damp rooms and even splashing water is not a problem for it.
Being a very discreet element of the arrangement, spot lighting allows you to brighten selected places, but it is also a stylish decoration. Alessio ceiling luminaires have an original design. They are available in several visual variants to choose from – with a square and circle base and in three colors – blending into the ceiling color scheme, matte white, elegant black in the mat and inox – satin (brushed steel in silver). In both square and round options, the Alessio spot ceiling luminaire is finished in a rounded way. Roundness adds originality to the light points, but above all, they give them aesthetic delicacy, allowing you to create subtle arrangement motifs. Splash-proof luminaire – IP54;
Recommended light source – MR16;
Mounting hole with a diameter of 70 mm. Material aluminium/cast iron
