

GTV SPOT - CEILING SPOT FIXTURE ELVA, IP54, ROUND, Ø85X45MM, BLACK / COPPER

Suspended ceilings, concealing the unevenness of the existing ceiling, electrical installation or ventilation, are a
popular solution in modern interiors. Most people opt not to use pendant lamps in bathrooms, mainly due to the risk of a
short circuit in the electrical system. Recessed eyelets are an ideal alternative in this case. IP rating is a very important factor to be considered with the purchase. ELVA not only looks beautiful, but its protection rating is IP54. It can be installed in interiors with high humidity;
Dedicated to light sources with MR16
cap;
Rich colour palette. Material aluminium, glass
Producent code OP-ELVAOCM-03
Pret: 27,59 LEI (TVA inclus)
