

GTV SPOT - CEILING SPOT LIGHT FIXTURE LINTO, IP20, ROUND, Ø90X29MM, BLACK

Linto ceiling spot light fitting – an elegant complement to indoor lighting
Linto is a
refined line of spot lighting eagerly chosen by customers. Its versatile character makes it suitable for office lighting or spot lighting in a
living room, hall, children's room, study or bedroom. The delicate visual form makes it possible to match the light points to many different arrangements, starting from classic, through modern, minimalist or Scandinavian style.
Linto ceiling spot light fitting is extremely discreet and delicate lighting. The outline of the fitting is only visible as a
narrow circle on the mounting surface. Spot light fittings are available in three visual variants to choose from, matt black that looks extremely elegant, classic white that blends beautifully with white finishes, and a white fitting with a
black, contrasting interior. Each model of the collection has a
movable internal module that increases functional comfort, enebling the light beam to be positioned in any direction. A moveable ring to change the lighting angle
Light and durable construction
