

GTV LAMPADAR - LAMPA PODEA VENETO, IP20, MAX. 20W, 3 X GU10, WHITE

The Veneto LED floor lamp is a
refined collection of modern lighting for offices, homes and spaces where functionality is to be neatly combined with an innovative form.
The Veneto series has been designed for users who do not want compromises between convenience and great design. In this model, a
place has been found both refined style with a
geometric expression, comfort with the possibility of wide adjustment of the angle and direction of incidence of light and great freedom in choosing the level of lighting, taking into account the dimensions of the lamp. In addition, two color options are available – subtle white and classic black. Thanks to this formula, Veneto floor lamps allow you to create a
coherent concept, for example within the dining room and living room. Luminaire dedicated to sources with GU10
cap
Modern and minimalist design Producent code LP-VEN20WO-00
