

GTV LAMPADAR - LAMPA PODEA YORK ,10W,900LM,AC220-240V,3 STEP DIMMABLE, 3-CCT,PILOT,PF>0,5,RA>85,WHITE

A modern floor lamp in a
minimalist form, that’s what York is. Its slender structure with smooth stepless adjustment of an arm is set on a
very solid metal base that prevents the lamp from falling over.
For the user’s convenience, all functions of the lamp are controlled by a
remote control, and there are a
lot of them:
Delay of turning off the lamp
Manual dimming adjustment
Manual adjustment of the colour temperature of the emitted light
Five preset programs responsible for the dimming and colour temperature.
The user has as many as five steps of dimming and three colour temperatures:
Cold – to work
Neutral – to learn and read
Warm – to relax
The functions of the lamp can also be controlled by a
touch switch located in the upper part of the lamp. Short touches make it possible to turn on and off the lamp and change the colour temperature. Longer pressing of the button dims and brightens the lamp.
The lamp is powered by standard mains voltage. Power cord length is 200
cm. The remote control is powered by one AAA battery, not included in a
set. A flexible arm enables adjustment of the angle of incidence of light;
Remote control with timer function;
The lamp can be controlled by touching the lampshade.
Five presets of the lamp. Voltage 220-240 V
Base type Led
Producent code LP-YORK10W-00-DEC

Pret: 409,65 LEI (TVA inclus)
