

GTV CORP DE ILUMINAT PENTRU EXTERIOR - GARDEN LUMINAIRE MARMO
38,E27,MAX.20W,IP65,AC220-240V,50-60HZ,38CM,PE

This remarkable decoration is more and more often found in a backyard gardens and in the green surroundings of hotel and restaurant complexes. The spherical fixture brings a note of modernity and effortless, simple elegance. Three sizes allow for various arrangements and contrasting compositions.

Marmo fixtures are best placed on lawns where they shed a soft, pleasant light.

The lampshade is made of polyethylene, which resembles solid rock. There is an E27 socket inside the lampshade. When choosing a light source, you should remember that its power should not exceed 20W. The 2.5 m long power cable is integrated with the fixture.

Marmo fixtures are mounted to the ground with 4 pins made of plastic. Diameter of the fixture – 38 cm;

Factory-made power cable 2.5 m long;

Safe usage in outdoor conditions – IP65. Voltage 220-240 V
