

GTV SPOT - ISUMI CEILING LAMP WITH ADJUSTABLE ANGLE, ALUMINIUM, 130×100, IP20, ES111, GU10, ROUND, BLACK

Isumi surface-mounted ceiling lamp fixture – sophisticated light in a
minimalist style
The Isumi LED ceiling fixture means a
stylish design with a
purposefully streamlined visual form. Extremely subtle and delicate, it blends in perfectly with any setting. It works well in living spaces, offices and public venues – wherever great effect is to play first fiddle. The high-quality aluminium fixture is a
technologically refined piece which enhances functional comfort.
This LED ceiling spotlight is designed around a
circle. It has an adjustable light beam angle and comes in two versions to choose from, soft white or classic deep black. In both versions, the finish is matt, which adds a
touch of refinement to the light. Adjusting the angle of incidence of the light provides convenience and a wide range of customisation options.
The Isumi LED ceiling fixture does not feature a
built-in lamp socket – this needs to be purchased separately, and the light source is ES111
lamps.
